

UAE-INDIA STARTUP SERIES

Pitch  Partner  Prosper 

BRANDING GUIDELINES

The working essentials — logo, colour, type & applications

The lockups

Stacked — primary
Square & balanced placements.

Horizontal
Headers, signatures, wide spaces.

TWO ELEMENTS, ALWAYS TOGETHER

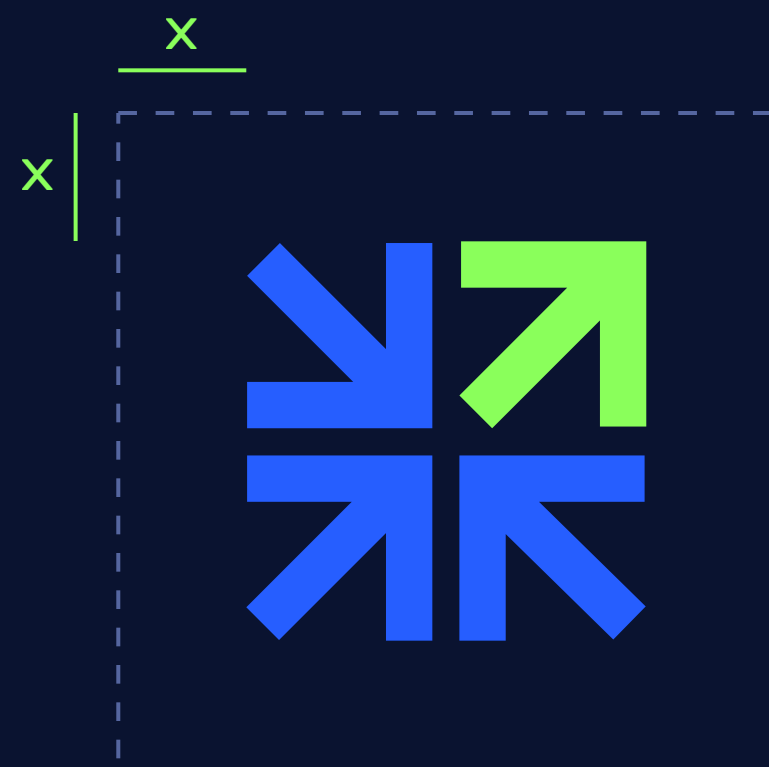

Symbol and wordmark form one lockup — don't separate or re-space them. Use Stacked by default; switch to Horizontal only where width demands it. The symbol may appear alone for avatars and favicons.

Edition lockups (e.g. "2.0") are for special use and aren't covered here.

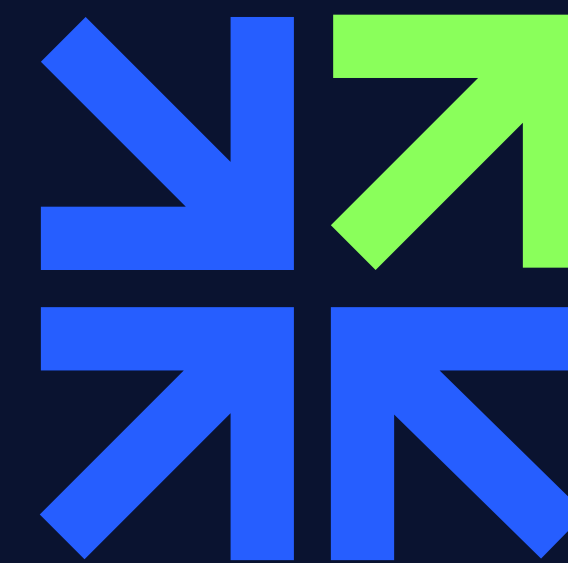

The mark, clear space & size

CLEAR SPACE

Keep a margin of X on all sides — X = one arrow height.

THE MARK ALONE

Use the symbol for avatars, favicons and tight square spaces - never stretch the full lockup.

MINIMUM SIZE

Lockup — 160 px / 25 mm wide

Mark — 32 px / 8 mm

Backgrounds

Near-Black

#010207 · default. White wordmark.

Brand Color Gradient

Hero surfaces — covers, banners, stages.

White / Light

Deep-Blue wordmark, full-colour mark.

RULE

White wordmark on dark and gradient; Deep-Blue wordmark on white. Keep the gradient deep, give the logo full clear space, and never set it on a busy photo without a solid scrim.

What not to do

Don't stretch or squash

Don't rotate or tilt

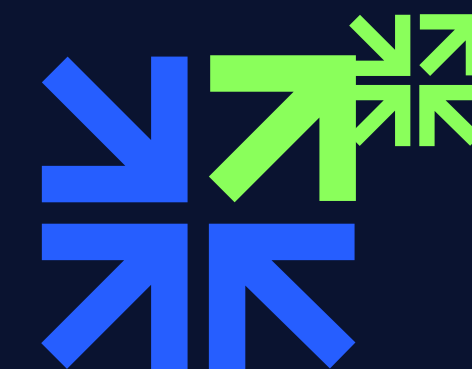

Don't change the colours

Don't add shadows or effects

Don't use low-contrast backgrounds

Don't rearrange the parts

Edition lockups

The series is recurring — each edition can carry its number, shown here as 2.0. The number is set in Orbitron and locks to the master logo; nothing else about the mark changes.

Horizontal · edition
Number sits right of a hairline divider.

Stacked · edition
Number centred under the wordmark.

WHEN TO USE

Use a numbered lockup only for edition-specific moments — that edition’s announcements, hero art and collateral. The base mark (no number) stays the evergreen series identity for everything else. Same colour rules apply: white wordmark on dark & gradient, Deep-Blue on white. Green stays a dark-only accent.

Pitch Partner Prosper

IN PARTNERSHIP WITH

Partner logo

Lock the partner logo to the right of ours with a hairline divider and “IN PARTNERSHIP WITH” / “POWERED BY” label.

CLEAR SPACE

At least X between the two logos, where X = one arrow of the mark.

SIZING

Match optical height, not bounding box.
Cap-height ≈ cap-height of “STARTUP SERIES”.

White lockup on dark; Deep-Blue lockup on white.

PARTNER WALL

Equal-size cells, consistent padding, on near-black or white — not the gradient.

Profiles & platform sizes

PROFILE PICTURE

Use the mark only on near-black — it must read inside a circle.

Mark, centred, clear space kept
